St. Leo November Newsletter

Parent Council

November 10, 6:30pm

Pizza and drinks provided

Please join us in the library to keep updated on school events.

Casino updates will be shared through the Fundraising Association.

See our website for the agenda and minutes of September’s meeting.

Fall Break

A reminder that there is no school on November 11, 12 and 13

Remembrance Day Ceremony

Please join us to observe Remembrance Day on November 10 at 1pm
Our Lady of Fatima

Demonstration of Learning

Please come to celebrate your child and experiance all they have learned. Our children work hard to achieve and we want to encourage, support and celebrate all they have done.

Date: November 26, 2026
Time: 1-4pm and 5-7pm. (Staff dinner break 4-5pm)

Please book a 10 minute time to speak to your teacher if they have not already called you regarding reading and numeracy date results. **Watch your email for a link to book your time.**

Activities for Siblings: When you are with your child during demo, we ask that siblings be in the gym with the supervised activities provided. The activities are planned and supervision will be provided. This is for siblings ages 3 and up. This is a special time for your school age child to be uninterrupted.

Sacramental Sign Up: St. Clare will have an information table set up to register for Sacraments.

The Ben Stelter Foundation: Come to the Wheel of Prizes to support the Foundation - bring your change!

Casino Volunteer Sign Up: The St. Leo Fundraising Council will have a table set up to have volunteers sign up to support our Casino dates.
Book Fair - Available in the library. Proceeds go to purchase books for our library!

Literacy and Numeracy Screener Results

Teachers and students have been hard at work completing literacy (reading) and numeracy (math) screeners. These assessments help us to understand different skills that your student is working towards.

Parents will be recieving a phone call from the teacher in November if your child has been flagged as "requiring additional support." The teacher will review the following:

1. Does your child need additional support?
2. In which areas of literacy and / or numeracy?
3. What are we doing to support them?

Teachers will explain the screener and the types of skills we are looking for. For example, if the child is able to pair sounds with identifying the letter, creating meaning from a text, using operations (+, -, x, divide) to solve equations.

Please ask questions in the conversation until you feel you fully understand as a parent.

If your child does not require additional support, please book a time at demo of learning and your teacher will have the conversation at that time.

Christmas Concert Save the Date!
